STRONGBOW EXPLORATION INC.**NOTES TO THE CONSOLIDATED CONDENSED INTERIM FINANCIAL STATEMENTS**

APRIL 30, 2017

(Unaudited – Prepared by Management)

(Expressed in Canadian dollars)

1. NATURE AND CONTINUANCE OF OPERATIONS AND GOING CONCERN ASSUMPTION

Strongbow Exploration Inc. (the “Company” or “Strongbow”) is incorporated federally under the laws of the Canada Business Corporations Act (“CBCA”). The consolidated financial statements of the Company are presented in Canadian dollars, which is the functional currency of the Company. The Company trades on the TSX Venture Exchange (“TSX-V”), (TSX-V – SBW) and its head office is located at Suite 960 – 789 West Pender Street, Vancouver, BC, Canada V6C 1H2. The Company has two wholly-owned subsidiaries: Strongbow Alaska, Inc. which is incorporated under the laws of Alaska, USA and Strongbow Exploration (UK) Ltd., which was incorporated under the laws of the United Kingdom in February 2016.

The Company’s principal business activity is the acquisition and exploration of exploration and evaluation assets. To date, the Company has not generated significant revenues from operations and is considered to be in the exploration stage.

The Company is in the process of acquiring and exploring its exploration and evaluation assets and has not yet determined whether these properties contain reserves that are economically recoverable. The recoverability of the amounts shown for exploration and evaluation assets and related deferred costs is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain the financing necessary to complete the development of its exploration and evaluation assets and upon future profitable production.

These consolidated financial statements have been prepared on a going concern basis with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation. However, the Company has sustained substantial losses from operations since inception and has no current source of revenue. Continued operations of the Company and further exploration on the remaining exploration and evaluation assets is dependent on the Company’s ability to complete additional equity financings or generate profitable operations in the future. These material uncertainties may cast significant doubt about the Company’s ability to continue as a going concern. These financial statements do not reflect the adjustments to the carrying values of assets and liabilities, the reported amounts of expenses and the classification of statement of financial position items if the going concern assumption was inappropriate. These adjustments could be material.

As at April 30, 2017, the Company had current assets of \$1,117,883 to settle current liabilities of \$146,160. Although the Company has positive working capital of \$971,723 as at April 30, 2017, the Company may be required to delay discretionary expenditures if additional financing cannot be obtained on reasonable terms. Failure to obtain additional financing when required may result in the loss of some or all of the Company’s exploration and evaluation assets (Note 10).

2. BASIS OF PRESENTATION**Statement of Compliance**

These consolidated condensed interim financial statements have been prepared in accordance with International Accounting Standards 34, Interim Financial Reporting (“IAS 34”) using the same accounting policies and methods of application as the audited consolidated financial statements of the Company for the year ended January 31, 2017. These consolidated condensed interim financial statements do not include all disclosures required by International Financial Reporting Standards (“IFRS”) for annual audited consolidated financial statements and accordingly should be read in conjunction with the Company’s annual audited consolidated financial statements for the year ending January 31, 2017 prepared in accordance with IFRS as issued by the International Accounting Standards Board (“IASB”).

The policies applied in these consolidated condensed interim financial statements are based on IFRS issued and outstanding as of June 20, 2017, the date the Board of Directors approved the statements.

3. SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

These condensed interim financial statements are expressed in Canadian dollars, the Company's functional and presentation currency, the currency of the primary economic environment in which it operates. These condensed interim financial statements have been prepared on a historical cost basis, except for financial instruments classified as *financial instruments at fair value through profit and loss*, which are stated at their fair value. In addition, these condensed interim financial statements have been prepared using the accrual basis of accounting except for cash flow information.

Accounting policies used in the preparation of these financial statements are consistent with those described in the Company's audited annual financial statements for the year ended January 31, 2017.

New Standards Not Yet Adopted

IFRS 9, *Financial Instruments* ("IFRS 9") is effective for annual periods beginning on or after January 1, 2018. IFRS 9 introduces new requirements for the classification and measurement of financial assets and liabilities as well as derecognition of financial instruments. IFRS 9 has two measurement categories for financial assets: amortized cost and fair value. All equity instruments are measured at fair value. A debt instrument is amortized at cost only if the entity is holding it to collect contractual cash flows and the cash flows represent principal and interest, otherwise it is at fair value through profit and loss.

IFRS 15, *Revenue from contracts with customers* ("IFRS 15") is effective for annual periods commencing on or after January 1, 2018. This new standard establishes a new control-based revenue recognition model which could change the timing of revenue recognition.

IFRS 16, *Leases* ("IFRS 16") is effective for annual periods commencing on or after January 1, 2019. This new standard eliminates the classification of leases as either operating leases or finance leases and introduces a single lessee accounting model which requires the lessee to recognize assets and liabilities for all leases with a term of longer than 12 months. Early adoption is permitted provided IFRS 15 has already been adopted or is applied from the same date.

The Company is currently assessing the impact of these new and amended accounting standards on its consolidated financial statements.

4. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The Company's financial instruments consist of cash, marketable securities, receivables, accounts payable and accrued liabilities and debt. Cash is carried at fair value using a level 1 fair value measurement. The carrying value of receivables, accounts payable and accrued liabilities approximate their fair values due to their immediate or short-term maturity. Marketable securities are recorded at fair value based on the quoted market prices in active markets at the statement of financial position date, which is consistent with level 1 of the fair value hierarchy. Long term debt is recorded at the transaction value and subsequently carried at amortized cost.

The Company is exposed to a variety of financial risks by virtue of its activities, including credit risk, liquidity risk, foreign currency risk and equity market risk. The Company's objective with respect to risk management is to minimize potential adverse effects on the Company's financial performance. The Board of Directors provides direction and guidance to management with respect to risk management. Management is responsible for establishing controls and procedures to ensure that financial risks are mitigated to acceptable levels.

Credit risk

Credit risk is the risk of financial loss to the Company if a counter-party to a financial instrument fails to meet its contractual obligations. The Company's receivables consist primarily of sales tax receivables due from the federal government and receivables from companies with which the Company has exploration agreements or options. The maximum exposure to credit risk at the reporting date is the carrying value of the Company's receivables and cash.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its obligations as they become due. The Company's ability to continue as a going concern is dependent on management's ability to raise the funds required through future equity financings, asset sales, exploration option agreements, or a combination thereof. The Company has no regular cash flow from its operating activities. The Company manages its liquidity risk by forecasting cash flow requirements for its planned exploration and corporate activities, and anticipating investing and financing activities. Management and the Board of Directors are actively involved in the review, planning and approval of annual budgets and significant expenditures and commitments. Failure to realize additional funding, as required, could result in the delay or indefinite postponement of further exploration of the Company's properties, and could result in the Company being unable to meet the continued listing requirements of the TSX-V. As at April 30, 2017, the Company had current assets of \$1,117,883 to settle current liabilities of \$146,160.

Foreign Currency Risk

The Company has exposure to foreign currency risk through its exploration and evaluation assets in the United States and the United Kingdom. To the extent that the Company has assets, liabilities or expenses denominated in US Dollars or UK Pounds Sterling, the Company will be affected by changes in exchange rates between the Canadian dollar and these currencies. The Company does not presently invest in foreign currency contracts to mitigate this risk. It is management's opinion that the Company is not exposed to significant foreign currency risk as at and for the three months ended April 30, 2017.

Interest rate risk

The Company is exposed to interest rate risk to the extent that the fair value or future cash flows of a financial instrument fluctuate due to changes in market interest rates. The risk that the Company will realize a loss as a result of a decline in the fair value of any short-term investment included in cash is limited because these investments, although readily convertible to cash, are generally held to maturity.

Equity market risk

The Company is exposed to equity price risk arising from its marketable securities, which are classified as available for sale. The Company plans to sell its marketable securities as market conditions permit, or as is required to finance the Company's operations from time-to-time.

9. ROYALTIES***Mactung and Cantung Royalty Acquisition***

In March 2016, the Company purchased from Teck Resources Limited (“Teck”) a 4% NSR on the Mactung tungsten project (one-half of which (2%) may be purchased by the property owner at any time for \$2,500,000) and a 1% NSR on the Cantung tungsten project (collectively, the “Royalties”). The Mactung project (non-producing) is located in the Yukon and the Northwest Territories; the Cantung project (non-producing) is located in the Northwest Territories. The Company paid \$1,500,000 to Teck upon closing of the acquisition and will make a further \$1,500,000 payment to Teck on the earlier of a development decision at Mactung or the re-commencement of commercial production at Cantung.

Osisko Gold Royalties Ltd. (“Osisko”), a significant shareholder of the Company, provided a \$1,500,000 interest-free line of credit to the Company to complete the royalty acquisition. The estimated net present value of the payment on the acquisition date was \$992,335 assuming a 15% discount rate (Note 11).

Title to exploration and evaluation assets involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many exploration and evaluation assets. The Company has investigated title to all of its exploration and evaluation assets and, to the best of its knowledge, title to all of its properties is in good standing.

10. EXPLORATION AND EVALUATION ASSETS – Continued***South Crofty Tin Project, Cornwall, UK***

On July 11, 2016, the Company acquired, from administration, a 100% interest in the South Crofty Tin Project and associated mineral rights in Cornwall, UK. The Company, through its wholly-owned subsidiary Strongbow Exploration (UK) Limited now owns a 100% interest in Western United Mines Limited (“WUML”) and Cornish Minerals Limited (Bermuda) (collectively the “Companies”). The Companies hold the rights to the South Crofty underground mine permission area, plus additional mineral rights located in various parts of Cornwall, UK.

In addition to the cash and common share consideration of \$1,853,374 paid on July 11, 2016, the Company agreed to the following additional payments and share issuances as part of the purchase and sale agreement with Galena Special Situations Fund (“Galena”) and Tin Shield Production Ltd. (“Tin Shield”) (collectively, the “Sellers”), whereby the Sellers would split the payments 52.5% to Galena and 47.5% to Tin Shield:

- Strongbow will make a \$2,000,000 payment to the Sellers on the second anniversary of the approval vote by creditors for WUML's exit from administration (date set at June 10, 2018). While Strongbow has the right to settle 50% of this payment in cash, the Company expects that 100% of the payment will be settled with the issuance of common shares and recorded a commitment to issue shares totaling \$2,000,000.
- Strongbow will issue 1,000,000 common shares to the Sellers upon receipt of a permit to increase water discharge from the old mine workings from 10,000m³ per day to 25,000m³ per day.
- Strongbow will issue 2,000,000 common shares to the Sellers on delivery of a positive feasibility study or commencement of commercial production, whichever occurs first.
- Strongbow will make a cash and / or common share payment to the Sellers equal to 25% of the Net Present Value (“NPV”) of the project upon making a decision to go into production. In the event that Strongbow's market capitalization is less than the NPV of the project when a production decision is made, Strongbow will pay the equivalent of 25% of its market value to the Sellers and the balance (between the 25% of market value and 25% of the NPV of the project) will be paid out as a 5% Net Profits Interest from production.
- In the event that Strongbow transfers any assets, rights, or entitlements to certain mineral rights which are not part of the core mineral rights (the “Other Mineral Rights”) to a third party before the agreed consideration has been paid to the Sellers, then the Sellers will be entitled to receive a payment equal to 10% of any consideration received for the Other Mineral Rights, to a maximum of \$1,000,000.

Sleitat and Coal Creek Tin Properties, Alaska, U.S.A.

On July 24, 2015, the Company acquired the Sleitat and Coal Creek tin properties in Alaska (collectively, the “Properties”) subject to the terms of a property purchase agreement (the “Agreement”) with Osisko and Mr. R. Netolitzky, and their respective wholly-owned companies, Brett Alaska Resources Inc. (“Brett”) and Thor Gold Alaska, Inc. (“Thor”). Thor held a 20% undivided interest in the Sleitat property and Brett held an 80% undivided interest in the Sleitat property and a 100% interest in the Coal Creek property. Mr. Netolitzky is a director of the Company and is therefore not at arm's length to the Company. The Company acquired the Properties for total consideration of 6,500,000 common shares of the Company allocated as to 5,000,000 common shares to Brett and 1,500,000 common shares to Thor, and a 2% Net Smelter Return (“NSR”) royalty on the Properties. The NSR royalty was allocated 1.75% to Brett and 0.25% to Thor. The common shares were issued at \$0.10 per share for a value of \$650,000. In addition, property acquisition costs of \$40,123 were incurred.

In addition to the shares and the NSR royalty, the Company granted Osisko a first right of refusal on the sale of any future royalties on any of its properties. Closing of the acquisition of the Properties and a private placement financing resulted in Osisko and Brett holding together 7,000,000 shares of the Company or 27.3% of the post-closing issued shares of the Company as at the date of the acquisition.

10. EXPLORATION AND EVALUATION ASSETS – *Continued*

Other Exploration Properties and Generative Exploration, Canada

Other Properties

The Company maintains a number of mineral claims in Saskatchewan and the Northwest Territories, including the Nickel King Project described below, as part of the Company's generative exploration programs.

Nickel King Project, NWT

The Company holds a 100% interest in a number of mineral claims and mining leases in the southern Northwest Territories. Certain of these mining leases are subject to a 3% NSR on base and precious metals production and an additional 2% gross overriding royalty ("GOR"). The Company may purchase the entire NSR at any time for \$1,500,000 and the Company may purchase one-half (1%) of the GOR at any time for \$2,500,000. During the year-ended January 31, 2014, the Company wrote off all capitalized acquisition and exploration expenditures due to limited exploration activities over the preceding three fiscal years. The Company maintains its interest in the underlying mineral claims and mining leases for the Nickel King Project by making annual lease payments of \$5,883.

Gold and Base Metal Properties, British Columbia

Skoonka Creek Gold Property

In May 2017, the Company sold its 65.74% interest in the Skoonka Creek Gold Property ("Skoonka") to Westhaven. Almadex Minerals Ltd. ("Almadex"), also agreed to sell its 34.26% interest in the Skoonka property to Westhaven. Under the terms of the property purchase agreement amongst Strongbow, Almadex and Westhaven, Westhaven issued a total of 2,000,000 common shares to Strongbow and Almadex, of which 1,300,000 common shares were allocated to Strongbow and 700,000 common shares were allocated to Almadex. In addition, Almadex retained a 2% net smelter return royalty on Skoonka. Westhaven is related to the Company by virtue of a common director.

11. LONG-TERM LIABILITIES*Line of Credit*

On March 15, 2016, Osisko, a significant shareholder of the Company, provided a \$1,500,000 interest-free line of credit (the “Loan”) to the Company to complete the acquisition of two royalties from Teck (Note 9). The Company must repay the Loan upon any sale of the Mactung project by the Government of the Northwest Territories; the Loan is secured by the royalties. Repayment of the Loan will be by conveyance of the royalties to Osisko at Osisko's election at any time after the sale of the Mactung project by the Government of the Northwest Territories, or in cash under certain other circumstances. Any failure to repay the Loan is considered an event of default (a “Default”). In the event of a Default, the \$1,500,000 principal will be repayable immediately in cash and interest of 5% will also be payable, calculated from the drawdown date of the Loan to the date of repayment. The Loan is secured by a charge on the two royalties.

	Three Months Ended	Year Ended
	April 30, 2017	January 31, 2017
Opening balance	\$ 1,115,693	\$ -
Estimated present value of payment obligation at acquisition	-	992,335
Accretion	38,677	123,358
Ending balance	\$ 1,154,370	\$ 1,115,693

The estimated present value of this payment obligation has been calculated using a discount rate of 15%. As at the March 2016 acquisition date, we assumed that the Mactung Project would be sold within a three year period, thereby triggering a repayment of the \$1.5 million line of credit.

12. CAPITAL AND RESERVES**Authorized Share Capital**

At January 31, 2017, the authorized share capital is an unlimited number of common shares without par value. All issued shares are fully paid.

Share issuances

There were no share issuances during the period ended April 30, 2017.

Stock options and warrants

The Company has a “10% rolling” stock option plan (the “Plan”). The maximum aggregate number of common shares issuable pursuant to options awarded under the stock option plan and outstanding from time to time may not exceed 10% of the issued and outstanding common shares from time to time.

Under the terms of the Plan, options will be exercisable over periods of up to five years as determined by the Board of Directors and must have an exercise price not less than the closing market price of the Company's shares prevailing on the day that the option is granted. Under the Plan, the Board of Directors may from time to time authorize the grant of options to directors, officers, employees and consultants of the Company and its subsidiaries, or employees of companies providing management or consulting services to the Company or its subsidiaries

The Plan provides that the directors have the discretion to impose vesting of options and that, unless otherwise specified by the directors, vesting will occur generally as to 25% on the grant date and 25% every six months thereafter. In addition, the number of shares which may be reserved for issuance to any one individual may not exceed 5% of the issued shares on a yearly basis or 2% if the optionee is engaged in investor relations activities or is a consultant.

16. COMMITMENTS

As at April 30, 2017, the Company is committed to minimum future lease payments for office premises and other monthly contractual payments to consultants as follows:

Year ending January 31, 2018	\$	132,650
Year ending January 31, 2019	\$	15,300

The Company's lease costs may be reduced due to recoveries through sub-leases.

17. CAPITAL MANAGEMENT

The capital of the Company consists of the items included in capital and reserves. The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company. The Company's objective for capital management is to plan for the capital required to support the Company's ongoing acquisition and exploration of its exploration and evaluation assets and to provide sufficient funds for its corporate activities.

The Company's exploration and evaluation assets are in the exploration stage. As an exploration stage company, the Company is currently unable to self-finance its operations. The Company has historically relied on equity financings and, in recent years, asset sales or exploration option agreements to finance its operations. In order to carry out the Company's planned exploration programs and to pay for administrative costs, the Company will spend its existing working capital and raise additional funds as required. To effectively manage the Company's capital requirements, the Company's management has in place a planning and budgeting process. The Company is not subject to any externally imposed capital requirements.
